CALIFORNIA PROPOSITION 65 DECLARATION

Dear Valued Customers,

Compas is dedicated to serving customers by providing high quality manufactured faucets and bathroom accessory hardware solutions that meet environmental regulations including Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986.

This certificate is to inform Compas customers that the chemical/metal substance content of its faucetry and related products for lead has been reviewed against California Prop. 65 requirements below whereby no materials or products were found to either contain or exceed the applicable regulatory threshold.

This Act, commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined to present a risk of cancer, birth defects or other reproductive harm.

The complete Proposition 65 chemical list can be found at:

http://www.oehha.ca.gov/prop65/prop65_list/files/P65single01032014.pdf

Be assured, Compas will continue to monitor the Proposition 65 regulations for any new chemicals/metals. Compas will compare any newly listed chemicals with the raw materials in our finished product and communicate this information to our customers.
Regards,

Dimitri Agraphiotis | Compas
